

LED PRESSURE ALARM

LOW PRESSURE ALARM VALVE CAP

Now ! your valve cap blinks when your tyre is underinflated

THE LOW PRESSURE ALARM FOR CARS AND TRUCKS

The only valve cap that self calibrates itself at the tyre pressure

Small, light equipped with anti-theft device

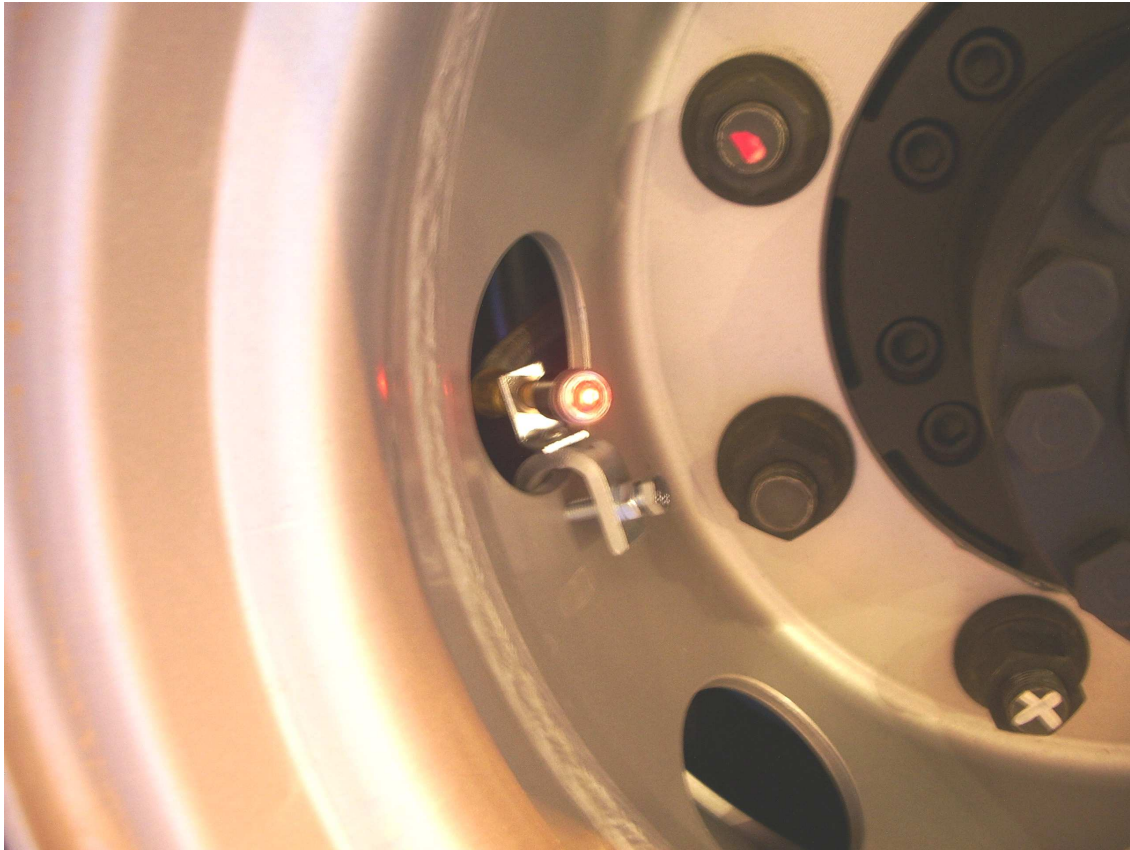

Blinks since a 260 grams/4 PSI tyre pressure loss (cars) or 520 grams/8PSI (trucks)

Accurate, durable and very strong

The only efficient and affordable tyre pressure monitoring system on the market

Easy to install

Feature/Parts	260gr-4PSI version/passenger cars	520gr-8PSI version/ Truck-Lorries
Body	Stainless steel	Stainless steel
Thread to meet the valve stem	Teflon/Nylon thread insert to prevent freezing to valve stem	Bronze
Standby Battery life	2-3 years	2-3 years
Flashing battery life	3 weeks	6 weeks
Weight	9.0g	11.0 g
Size	H 21.3 mm Ø 13.7 mm	H 23.3 mm Ø 13.7 mm
Recommended pressure range	From 1 to 5 bar	From 1 to 12 bar
Can handle pressure peaks up to 4bar-65psi above calibration pressure	Yes	Yes
Can handle heat up to 70°C	Yes	Yes
Can adapt anti-theft device	Yes	Yes
Can handle pressure peaks up to 11 bar-150psi above calibration pressure	No	Yes
Can handle more than 125°C	No	Yes

**Trucks and Lorries flashes 520 grams (8 PSI) under the set pressure
- cars and light vehicles 260 grams (4 PSI)**

LED PRESSURE ALARM

**is your safety and
tyres guardian**
